

LITE PAPER

DOGEGAYSON

\$GOGE

DOGEGAYSON \$GOGG LITEPAPER V.1

ABSTRACT

A purely peer-to-peer, virtual and blockchain based version of life, currencies and nation states, would allow all living beings on the internet a truly connected and equal world; universal citizenship, basic natural freedoms, electronic economies, borderless cultures, decentralized autonomous community governance, digital identities in a digital society that exists in perpetuity on the network, and without the need for physical means.

INITIATIVE

DogeGaySon, token symbol \$GOGG, is an innovative, experimental, and community-based project, aiming to revolutionize the digital and real world in every way. \$GOGG was created to unite humans throughout the universe, ensure freedoms, spread love, fight hate and global inequality, directly changing the world through the power of blockchain technology, all while making crypto truly fun.

Gogg is the 1st ever Gay Doge family member token, the 1st ever Doge token with dividend yield automatically paid in \$CAKE, the 1st cryptocurrency to utilize direct action peer-to-peer charity and is the 1st cryptocurrency truly for ALL human beings.

Creating an international, safe, and ever growing permanent virtual community for all, and building an ecosystem for holders to use their \$GOGG and \$CAKE rewards in the digital and real world. Engaging community members in daily activities, games, events, and highlighting real life stories while utilizing direct action peer-to-peer charity, for anyone in the world who is in need of help!

CORE VALUES

We believe irrespective of place of birth, residence, language, gender, race, nationality, religion, sexual orientation or citizenship of the existing earth states, all living beings are created equal, and natural freedoms must be protected. We aim to unite the future humanity as transethnic, transnational, trans religious, ethical, fair, peaceful, looking into the infinite universe, based on equality and dignity of every human being.

DogeGaySon believes that ALL people have a right to Life, Love and Self Governance of Finances! No one; not government, company, group or person should interfere with or prohibit those natural rights.

“ Freedom to life, Freedom to love, and Freedom to self-govern finances.”

FREEDOM OF SELF GOVERNANCE OF FINANCES

We believe all people have the right to freely self govern their own finances, without interference, control, or authority from any other party, whether being a person, country or nation. Through the use of blockchain technology, true financial freedom can be achieved.

FREEDOM TO LIFE

Everyone has the natural inherent right to life, liberty and security of person. We believe no person shall arbitrarily be deprived of their life, no matter who they are or where they are from.

FREEDOM TO LOVE

Love is love. We strongly support every being, we believe everyone is entitled to equal rights worldwide; nobody should experience discrimination or persecution because of who they love

PEER TO PEER COMMUNITY / GLOBAL EQUALITY

Created by friends, for friends. A direct peer-to-peer internet and crypto based community that all are welcome to join! We are truly inclusive, diverse and aim to be a bridge, connecting humans across the world from all backgrounds, religions, nationalities and orientations. We take pride in our collective mission to support all people worldwide towards global equality and the pursuit of happiness.

ABOUT THE TEAM

We are a diverse and inclusive team of friends and artists from all over the world, coming from all walks of life, inclusion built into our very nature. Some of our founding team are members of the LGBTQ community and some are not, but -regardless of background- all are supporters of global equality. Each of us brings a wealth of knowledge and experience in our respective fields. Our world is diverse; we respect all opinions and warmly welcome people from all backgrounds, religions, cultures, genders, and personal preferences.

Some LGBTQ team members live in countries where being LGBTQ is a criminal offense and punishable by imprisonment for many years. Still today, in 9 countries, there exists evidence of the death penalty as punishment for those who are LGBTQ. Safety, security and longevity of the project as well as our community are top priorities.

We have chosen the path of anonymity, like many great crypto-pioneers before us, inspired by the anonymous Pancake Swap development team and Bitcoin's creator Satoshi Nakamoto. The \$GOGE team has founded another true anonymous monetary and civil solution amidst a world of corruption, inflation and hate. In this case, for everyone's safety and security and the project's longevity, we will follow in our icon's footsteps regarding the anonymity of the creator(s).

THE \$GOGE TOKEN

Weekly Community Activities- Engaging our community in weekly activities that are determined by the community; such as various games, events, virtual parties, giveaways, contests, and many more secret community projects/ activities to be revealed!

Real Life \$GOGE & \$CAKE Use Cases - The Goge token powers the Goge ecosystem, creating ever growing multiple use cases, and allowing holders to use Goge as well as their \$Cake rewards in real life and virtual life with fast speeds and cheap fees.

Direct Action Charity - Our original direct action peer to peer charity is a community driven initiative which aims to provide direct financial relief to anyone in the world who may be in need. As other real life charities and charity tokens benefit organizations, companies, and animals, we believe every human being could use a little help sometimes! Blockchain technology and cryptocurrencies make it possible to cut out the middle man, allowing everyone to live in a truly connected direct financial ecosystem that exists universally. Goge holders will be able to share /submit their stories to our project, and after an authentication and verification process from the Goge team, our newsletter will weekly feature people and their stories (public or anonymous), all donations made will be directly split between all those who are featured. Every person deserves a chance to live in happiness, and we encourage everyone to share the love and utilize their \$Cake rewards!

Gogeland Currency- Our token will be the official currency of Gogeland. A permanent experimental and innovative project seeking to revolutionize and combine our physical and digital worlds, the first of its kind.

TOKENOMICS

DogeGaySon / \$GOGE was created on the Binance Blockchain (BEP2) through the Binance Smart Contracts family (Binance Smart Chain - BEP20). Binance Chain BNB (BEP-2 format) was launched by Binance in April 2019. Its primary focus is to facilitate fast, decentralized (or non-custodial) trading.

Binance Smart Chain (\$BNB (BEP-20 format) is best described as a blockchain that runs in parallel to the Binance Chain (\$BNB). Unlike BNB, Binance Smart Chain (\$BNB) boasts smart contract functionality, fast and low fees.

Pancake Swap is the leading, most popular decentralized exchange that allows one to trade cryptocurrencies and tokens without a centralized intermediary, keeping custody of your tokens all the while. It is built on automated smart contracts deployed on Binance Smart Chain, a product of Binance. Their native token is \$CAKE.

10% \$CAKE Reward System - Our smart contract has a built-in function that takes 16% taxes on each transaction, using these funds to buy and redistribute Cake to our holders. 10% of each transaction is used to reward holders in Binance-Pegged \$CAKE, PancakeSwap's native token. Redistribution of rewards is automatic, every 60 minutes, and based on the token's volume as well as respective to the holder's current token balance.

6% Buyback Fund & Marketing - 3% is used for our buy back function to balance the dividend sells and 3% percent is used for marketing/ the team, to ensure we can continue to grow our community and further develop our project long term.

Anti-Whale Tech - Our token has adjustable transaction limits and max wallet size , this way we can ensure the healthiest balance for the project and ensure financial security with our holders at any given time.

TOKEN DETAILS

NAME: DogeGaySon

SYMBOL \$: GOGE

GOGE TOTAL SUPPLY: 100,000,000,000

GOGE CONTRACT: TBA.

NETWORK: Binance Smart Chain (BEP-20)

Information Published in the Whitepaper

The whitepaper provides information and material of general nature. You are not authorized and nor should you rely on the whitepaper for legal advice, business advice, or advice of any kind. You act at your own risk in reliance on the contents of the whitepaper. Should you decide to act or not act you should contact a licensed attorney in the relevant jurisdiction in which you want or need help. In no way are the contributors to the whitepaper responsible for the actions, decisions, or other behavior taken or not taken by you in reliance upon the whitepaper. You are not authorized and nor must not should you rely on the whitepaper for legal advice, business advice, or advice of any kind.

Involvement Risks

The team does not recommend that any cryptocurrency should be bought, sold, or held by you. Do conduct your due diligence and consult your financial advisor before making any financial decisions. By purchasing Goge, you agree that you are not purchasing a security or investment and you agree to hold the team harmless and not liable for any losses or taxes you may incur.

You also agree that the team is presenting the token “as is” and is not required to provide any support or services. You agree that by purchasing or exchanging Goge tokens you may not claim any tax, fee, reward or any transaction or activity from Goge, nor any of the Goge team members, nor any other third-party. Any functionality of the Goge application, the Goge Token as well as the Goge Project mentioned within the present whitepaper is of purely technical nature and not related to any legal claim of a Goge token holder.
